IN INVENTORSHIP FROM INTERNATIONAL APPLICATION**

I, Martin Zimmerman, Ringstraße 10, 79288 Gottenheim, Deutschland, hereby state that I am not an inventor of the above-referenced application. Rights in the original German priority application No. 199 32 375.5 had originally been assigned to me by joint inventors, Bernd Klemm, Andreas Melzer, and Jürgen Schlegel. The PCT request form was inadvertently marked to indicate that I was also an inventor and not just the applicant for this application. This error occurred without deceptive intent on my part.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both, under 18 U.S.C. §1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

ASSENT OF ASSIGNEE TO CHANGE AND INVENTORSHIP

VivoCell GmbH is the owner of the entire right, title and interest in the above-referenced invention, as indicated by the attached PCT / RB / 306 form. Also attached is an Assignment of the present invention from the actual inventors, Bernd Klemm, Andreas Melzer and Jürgen Schlegel which has been submitted for recordation at the U.S. Patent and Trademark Office.

The Assignee, VivoCell GmbH, hereby consents to a change in inventorship to remove Martin Zimmerman, who was inadvertently named as an inventor in the PCT request form, as an inventor.

I hereby declare that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so

made are punishable by fine or imprisonment, or both, under 18 U.S.C. §1001, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
